ITS POLICIES AVERAGE THE LARGEST

Of any American Company. It is so declared by the New York Insurance Department. This is an advantage, and is evidence that this Society is the most patronized by the capitalists.

It issues all desirable Non-Forfeiting Policies on a Single Life, from \$250 to \$25,000.

All Profits Divided among Policy Holders Annually from the Start.

Its five modes of applying Dividends are: Permanent Increase of Policy, Term Increase of Policy, Permanent Reduction of Premium, Term Reduction of Premium, Limitation of Number of Premiums to be Paid. These concessions are made by no other Company.

Its comparative rank as to new business done since its organization, among all American Companies, stands as follows: In 1860, it was the NINTH; in 1861, the EIGHTH; in 1862 and 1863, the SEVENTH; in 1864 and 1865, the SIXTH; in 1866, the FOURTH; in 1867, the THIRD; in 1868, the SECOND.

It is the most successful Company ever organized, and, for its years, the largest Mutual Life Insurance Company in the World.

SUPERIOR ALBANY PALE, BROWN, AMBER

Analytical Laboratory,

ALBANY MEDICAL COLLEGE, May 2d, 1859.

I have made careful chemical examinations of several samples from different brewings of the article known as "McKNIGHT'S MALT WINE," and find it to be, as represented, a liquid containing nothing but the fermented extract of malt and hops. The different specimens were found to be nearly uniform in composition—the slight difference observed being principally in the amount of alcohol present, owing probably to the varying length of time that had elapsed since the brewings were made.

The Malt Wine examined contained no excess of saccharine matters, such as sugar or honey (as is often the case with similar articles), and which have the effect to mask, to a more or less considerable extent, the peculiar flavor of the hop, and at the same time to diminish the medicinal value of the malt liquors in which they are found. The amount of alcohol contained in "McKNIGHT'S MALT WINE" is considerably greater than is generally found in American Ales. From the examinations I have made, I am satisfied that the "Malt Wine" is made from carefully selected barley and hops, and is skillfully brewed; that in point of purity, and all desirable qualities, it is fully equal to the best imported ales. As such I can confidently recommend it to the public as an agreeable beverage, and to Physicians as a desirable article for medicinal use.

JENKS' WINDOW SPRING

For Sale by all Hardware Dealers.

The engraving represents a Window Spring ; a valuable improvement by H. F. JENKS on the Foster Spring, well known for many years in the New England States. It is very simple, comprising a steel spring secured to an iron frame by a screw, by which the spring can be adjusted to suit a light or heavy sash. The pressure of the spring against the jamb casing holds the sash at any desirable point, and prevents any rattling arising from imperfectly fitting sash. The lever having its fulcrum in the iron frame, operates the spring without the use of pins or rivets, is not liable to wear out or get out of order. The plate is put in the jamb casing, forming a lock when the window is shut.

THE NEW SEWING MACHINE.

DAVIS' NEW VERTICAL FEED

SHUTTLE MACHINE,

Is the latest improvement, and a combination of **Simplicity, Durability and Economy** in the Sewing Machine line.

It is the model of simplicity, and can be used by any person, without fear of injury or derangement, being composed of only **Ten Working Parts**, while other Machines have from thirty to forty. It is a **SHUTTLE MACHINE**, making a beautiful Lock Stitch, firm and lasting, precisely alike on both sides of the fabric sewed.

It will work equally well on fine Silk and heavy Muslin and Leather. It uses a **STRAIGHT NEEDLE**, and will feed itself over the heaviest seams without assistance or fear of breaking needles.

It is by far the cheapest, most durable and least complicated Machine yet introduced, being furnished ready for use on a **Black Walnut Table**, with **Polished Top**, with **Two Hemmers, Two Fellers and a Self Sewer** for

\$ 5 5 . 0 0 .

It is peculiarly well adapted to the use of Families and Factories. It is **Warranted** to do all kinds of work perfectly, such as

HEMMING, TUCKING, QUILTING, BINDING, CORDING, &c., &c.

Wherever it has been used it has been pronounced

The Cheapest, Most Durable and Best Machine in the World.
